FAURE AS DICTATOR.

Threatens to Resign His Office—
The Political Crisis in
France.

Bitter Opposition to Revision of
the Dreyfus Case Leads the
President to Be Arbitrary.

Paris, Sept. 16.—The Dreyfus
affair has entered a new phase.
A presidential crisis is threatened. M.
Faure is reported to have renounced
against revision at Monday's cabinet
meeting, and the Dreyfus press will
not pardon him. This people must
be prepared to hear most scandalous
accusations against President Faure,
which must be taken with many
grains of salt. However, the fact re-
mains, unfortunately, that there is a
growing danger of the president re-
signing. If he should do so, no pres-
ident of the third republic will have
remained in office to the end of his
term.

WOULD THROW OUT BRISSON.

Paris, Sept. 16.—The New York
World correspondent cables: We
are on the brink of the gravest crisis
since the birth of the third republic.
The situation is briefly this: Bri-
sson and all the members of the cabinet,
with the exception of Zola and
possibly Lacroix, are convinced of
the absolute necessity of a revision of
the Dreyfus case, alike in the interest
of justice and of the state. General
Brieger has signified his willingness
to take the portfolio of war and will
accept a revision. At Saturday's
cabinet meeting a decision will be
reached, and it is certain revision
will be decreed.

President Faure, who has been a
determined opponent of revision, has
consented to be rumored that he will
resign if it is granted. No one
credits his threat of resignation, but
every one sees the move is a desper-
ate expedient to get rid of one blow
of Brierson's cabinet, as he has fairly
hoped for revision also.

But M. Faure's unconstitutional
action is directly interfering with the
responsibility of the cabinet efforts
an example of lawlessness to high
places which is the first step toward
a revolution. He is accused of am-
biguity in dictating, and if he suc-
ceeds in destroying the Brierson cabi-
net it will be the act of a dictator.
The Dreyfus agitation can now be
suppressed only by the exercise of
arbitrary power. President Faure
has made himself the champion of
the army and its tainted chiefs, who
will do anything to avoid the exposure
that revision would entail on
them, and are ready to place that
arbitrary power in his hands. A mili-
tary coup d'etat was therefore freely
contemplated tonight, as the probable
outcome of the crisis should the
president's efforts to bulldoze the
Brierson cabinet fail.

Col. Paty du Clam in an interview
Wednesday at his home in the Ave-
nue de la Republique said: "I know very
well my being put out of the army
into civil activity is enough to set
wagging all the tongues in Paris, but
there is to be no sensational sequel.
Whatever may be my relation to this
accusation, it is solely official. All the
other business of the army, about my
having headed Dreyfus, and per-
vaded his wife are excusable. My
connection with the Dreyfus case is
none. The war minister best knows
why he has relieved me temporarily,
and like a soldier I ask no questions,
but submit. If you, like the French
reporters, are asking theatrical ques-
tions, let me assure you, you are on
the wrong track. The light, about
which Zola has premeditated so much, is
nothing but good to me."

THE FRENCH ON THE NILE.

London, Sept. 16.—The Consti-
tution correspondent of the Daily
Mail says news has been received
from the occupation of Fashoda (Khartoum) by the French expedition un-
der Major Marchand, assisted by ten
thousand Arabians. It is prob-
able that the English will contest the
possession.

NEW TRIAL
FOR DREYFUS.

The French Cabinet Will To-
night Order a Revision
of the Celebrated
Case.

Expected That a Cabinet Crisis
and Possibly a Presidential
Crisis Will
Follow.

Paris, Sept. 16.—The cabinet to-
night will order a new trial for Drey-
fus. It is expected that this order
will be followed by a cabinet crisis,
and possibly a presidential crisis.

PIO PILLAR.

Aguinaldo Has an Insurgent
Rival Who May Make
Trouble.

Proposed to Attack Aguinaldo and
Also the American
Troops.

Manila, Sept. 15.—The insurgent
general, Pio Pillar, is preparing to
make trouble. He is an enemy and
rival to Aguinaldo, and is moving his
troops to harass Aguinaldo as much
as possible. Pio Pillar has threaten-
ed to attack the American forces, but
an attack from him is not feared.

NAVY READY FOR WAR.

None of the Fighting Vessels Are
to Be Retired Now.

Norfolk, Va., Sept. 16.—Although
the navy department may not con-
template a resumption of hostilities
before the Philippine struggle, it will be
prepared to meet promptly with any
development in the situation and is
unquestionably preparing for a naval
demonstration. The auxiliary navy
will not be reduced, and none of the
fighting ships of the regular es-
tablishment will be retired or placed in
ordinary, as were the Minneapolis,
Columbia and many of the monitors
before the outbreak of hostilities with
Spain.

THE GOEBEL LAW.

The First Agreed Case Will Come
Up at Frankfurt This Month.

Frankfurt, Ky., Sept. 16.—The
agreed case to test the constitution-
ality of the election law will come up
before Judge Centell for argument
this term. The Republicans have
decided to enter into the case and
further agreed facts will be sub-
mitted, and the law bitterly con-
tested. The case will be taken to the
court of appeals and decided before
the November election.

ATE POISONOUS WEED.

Horrible Death of a Little In-
fant at Cadiz, Trigu
County.

Cadiz, Ky., Sept. 16.—A 2-year-
old child of Mr. Carter Greenwald
died from poisoning Wednesday
night. The child was playing out
from the house and in a play area
blossom of a poisonous weed, sup-
posed to be Jimson, and died in hor-
rible agony a few hours afterward.

GERONIMO ARRIVES AT UMAHA.

Omaha, Neb., Sept. 16.—Geronimo,
the Apache chief, who with his
tribe from the San Carlos agency
were the last to be subdued, giving
San Carlos a long chase before he
could wear them out, arrived in
Omaha, together with twenty other
Apaches and a party of 100 Coman-
ches, Wichitas, Cheyennes and Ara-
pachos with their ponies. They go
to the Indian congress at the ex-
position.

PHILIPPINE LEGISLATORS.

London, Sept. 16.—The Manila
correspondent of the Times says:
The insurgent congress met at Ma-
nila yesterday forenoon and Agui-
naldo delivered a brief message con-
gratulatory on the happy termina-
tion of the revolution and complete
conquest of the territory. He ap-
pealed to the delegates to prepare a
constitution and promulgate laws to
secure the complete and permanent
liberty of the Philippines. The as-
sembly was organized preparatory to a
discussion on the proposed constitu-
tion and code of laws and the election
of a president.

BLUSTER OF THE SULTAN.

Refusal to Withdraw Troops
From Crete Not Regarded
Seriously.

London, Sept. 16.—It is not con-
sidered in the informed circles here
that the sultan's refusal to withdraw
the Ottoman troops from Crete is
seriously taken. It is but another
instance of that wily politician's
habit of trusting to discourses
among the powers to produce a dead-

lock which will enable him not only
to indulge in impudent bluster but
also to fail, for the relations of the
powers have undergone a vast change
since last year. England and Ger-
many are undoubtedly on more
friendly terms, and Russia has come
to the conclusion that it is time to
draw in her horns somewhat. There-
fore, despite the sultan's impudent
refusal to withdraw the troops from
Crete, it is tolerably certain that not
only the English admiral's ultimatum
will be accepted by Edhem Pasha
but the complete withdrawal of the
Turkish troops will follow.

SPANISH TROOPS.

Evacuating San Juan in a Quiet
Manner.

San Juan, Porto Rico, Sept. 16.—
The Spanish troops are evacuating
the outposts and garrisons of the city
without giving trouble. Their places
will soon be filled by American troops.

Railway Co. Has Got the

Louisville, Ky., Sept. 16.—It is
reported here that the Southern Rail-
way company has purchased the K.
& I. bridge and the St. Louis Air
Line railroad.

NICHOLASVILLE.

Celebrates Her One Hundredth
Anniversary Today.

Nicholasville, Ky., Sept. 16.—The
celebration of the one hundredth an-
niversary of the founding of this
town is in progress today and is a
great success. The events today
were the mayor's parade, a barbecue
and several addresses by noted
orators.

IS IT LOUISE KING?

Thought That the Disembodied
Body Would May Be
Here.

Bridgeport, Conn., Sept. 16.—It
is now believed that the disembodied
body that was found in the Yellow
Mill pond this week is that of Louise
King, a leading society belle of New
York City, who disappeared Sunday.
Miss King disappeared from Coney
Island Sunday evening. She was at
first thought to have been drowned.
Her people are wealthy and all
means have been used to find her,
but thus far without success.

NO ACTION.

Will be Taken by the State Board
of Health about Yellow Fever.

A called meeting of the executive
committee of the state board of
health was held last night in the pa-
lors of the Galt house, says yester-
day's Louisville Post. Those present
were Dr. J. N. McCormack of Bowling
Green, secretary of the board; Dr.
J. M. Matthews, Dr. William
Haley, Dr. J. M. Bodine, Dr. H. H.
Crawford, Dr. H. H. Crotch, Dr. B. W.
Snow and Dr. F. T. Euseman, state
veterinary surgeon.

The object of the meeting was to
discuss the yellow fever situation in
the south and to take further action
toward stamping out and preventing
the spread of anthrax among cattle
on the farms around this city.

TEN TONIGHT.

Opera House.

At Field's big white minstrels will
be the attraction at Morton's opera
house tonight. The name of At
Field's is a sufficient guarantee that
the attraction will be first class in
every particular. The indications
are that Morton's opera house will
be packed to the doors. Those who
intend going should leave their seats
reserved at once. They can be se-
cured at Van Culin's book store.

RUFEE VEAL
ACQUITTED.

His Examining Trial Was Held
This Morning in the Police
Court—All Cases Against
Him Were Dismissed.

He Was Released and Received
Many Congratulations—Grand
Jury Will Not Indict Him.
It Is Understood.

The examining trial of Rufe Veal,
charged with the murder of James E.
Grief, and with having maliciously
shot Grief and Press Scholtz, took
place before Judge Sanders this
morning at 10 o'clock, and there was
a large crowd present. Two stenog-
raphers were present to take the evi-
dence.

The witnesses introduced were the
same as before the coroner's inquest,
with an addition of two, and there
was no material difference in the evi-
dence, showing so conclusively that
Veal was justified, that the prosecuting
attorney, Mr. Wheeler Campbell,
moved that all the warrants be dis-
missed. The evidence of Scholtz was
not heard, and would have made
no material difference in the case,
no matter what it might have been,
as the preponderance of testimony
was in favor of the defendant even
had he made a statement different
from any other witness.

Attorneys Reel, Crossland and
Gilbert represented the defendant.
Judge Sanders made few remarks
in reviewing the case, saying that the
evidence showed that the defendant
had shot in the defense of his life,
after several efforts to get away from
the two young men and avoid a dif-
ficulty, which they seemed determined
to have. He dismissed all the cases
against Mr. Veal, and discharged him
from custody.

The grand jury will pay no at-
tention to the case, as the two previous
investigations are sufficient to justify
them in refusing to find an indict-
ment.

After the trial this morning Mr.
Veal was warmly congratulated by
his many friends, who were at the
trial. His guard, Mr. Joe Goureaux,
was released.

Joseph Sutton, the negro at whom
Mollie Clark shot five times at the po-
lice court this morning on a breach
of the peace charge. He formerly
lived with the woman, but found one
he liked better and married her.

This made the Clark woman mad,
and in her insane jealousy she at-
tempted to kill him, and did not dis-
cuss it, and has been indicted by the
grand jury for malicious shooting.
It seems that Sutton was not dispo-
sed to let the woman alone, but con-
tinued to go to see her, and agreed
to give her an order each week for
money. He was at her home on
Washington street night before last
when they had trouble, and she at-
tempted to use a hatchet on him. He
took the weapon away from her, and
she broke a bottle of medicine over
his head, inflicting a bad wound. He
was adjudged the aggressor, and was
fined \$5 and costs.

Judge Sanders in commenting on
the case, said that he could not un-
derstand what sort of an infatuation
it was evident the people had for
each other, and if they were placed
in a room to themselves and given all
the axes and hatchets they wanted
and allowed to cut and hack until
they killed each other the community
could be rid of two mighty bad sub-
jects.

John A. Vaneur, a white man, was
arraigned on a charge of obtaining
money by false pretenses from Mr.
John Terrell. He sold to Mr. Ter-
rell for \$1.50 a saddle and some bar-
ness that were stolen from Pat Lally
not long since, and is alleged to have
made false representations to Mr.
Terrell in claiming that they were his
property. He has employed Judge
Campbell to defend him, and the case
will be heard until Monday. He claims
to have bought the harness from a
boy for \$5 cents, but does not know
who the boy was.

Three young men were fined for a
slight breach of the peace.

PIANO TUNING.

It is somewhat strange how so
many people will employ a stranger to
tune a piano. They will buy an
instrument worth anywhere from
\$100 to \$500 and then get a stranger to
tune it when an experienced man
can tune a piano in half an hour
beyond the possibility of complete
repairs.

Mr. L. E. Girardier is not only an
expert piano tuner, but he is a home
man. He has a reputation to main-
tain. He can't afford to do a bad
job at any price. He is here to do
your work thoroughly. He don't do
your work, get your money and get
out of town in twenty-four hours.

When you want a piano tuned call
on L. E. Girardier and get it
done right.

The Hannan Case to Be Given
to the Jury This After-
noon—Burrows Case
Comes Next.

The jury returns one in-
dictment for Murder—There
Will Be No Indictment in
the Veal Case.

The case against Thomas Hannan,
charged with the murder of Will
Hall, will be given to the jury
this afternoon. The evidence was
presented soon after the afternoon
session began, and the arguments
followed. By adjournment Hannan
may know his fate.

The case against Dr. Reuben Bor-
rows, charged with murder, is next
on the docket.

The grand jury had reported no in-
dictments up to present time. One of
the jurymen said to a reporter that
there would be no indictment in the
Veal case.

A. Frank, of the Frank gang of
alleged shoplifters, was released yester-
day on bond. He has been ac-
quitted of three charges at the present
term of circuit court, but there are
still four more indictments pending
against him. His bond was fixed at
\$200 and R. Michael, Jr., became his
bondsmen.

The grand jury yesterday returned
indictments as follows:
Hedge Harley, petty larceny.

John Brown, alias Chas. Hawkins,
willful murder. Brown, alias Haw-
kins, is the negro arrested in Illinois
on the charge of killing and robbing
Ed Capers, who was employed at the
Leyne fleet along the city last winter.
Capers' body, with a bullet hole in
his head, was recovered in the river
near Metropolis.

NEWS OF THE RIVERS.

A shooting scrape occurred on the George Lee yesterday while the boat was lying at Caruthersville. The parties directly interested in the affair were Capt. M. N. Neely, of the boat, and Charley Doria. It is said Doria was crazy drunk, and without warning opened fire on the captain, who returned the shot. Neither were hurt, but one of the shots, however, wounded a passenger. The clerk was disarmed and sent to Osceola, a short distance from Caruthersville. After arriving home, during the night, he shot himself through the head, and was found dead early this morning.

The Dick Fowler had fair business today on his departure for Cairo. The City of Sheffield passed out of Paducah river last night for St. Louis with a big trip.

The towboats John A. Wood and Boaz are here. The Wood arrived last night and the Boaz this afternoon. They have a tow of empties and will lay up here on account of low water. The crew of each boat will return to Louisville via rail. Al Faulkner and John Godfrey, champion pilots, brought the Woods out.

The Joe Fowler is over due from Evansville, and will leave during the afternoon on her return trip.

FIFTY YEARS AGO.

This Country and Its People Half a Century Back.

Many of those who attended the first meeting of the Science association 50 years ago, says W. J. Motter, in a lecture made to their journey, or part of it, by stage coach or in the saddle; they met many a boy riding to the neighborhood mill with a bag of corn as grain and saddle, and the student doctor or minister on horseback, with his wife on a pillion behind, they passed by farmers swinging the back-breaking cradle or wading the tedious hoe, while lusty horses grew fat in idleness; they caught glimpses of housewives spinning and such and such a scene, and in the past the fabrics required to clothe their families; they followed trails so rough that the transportation of produce to market multiplied its cost, and carrying back family supplies was a burden; everywhere they saw land hungry for the plow, and the farmer's hand was not even then of a deliverer; they did not even dream of electricity, and they should be made to furnish the means for her own subjugation. The mails were carried slowly by coaches and postboys; the telegraph was a little more than a toy, and the telephone, the trolley car and the typewriter had not begun to shorten time and lengthen life, and steel was regularly imported from Sheffield, and iron from Norway. The slow and uncertain commerce of interior navigation was the pride of publicists, and the great boats, a population of 25,000; they were carried slowly by coaches and postboys; the telegraph was a little more than a toy, and the telephone, the trolley car and the typewriter had not begun to shorten time and lengthen life, and steel was regularly imported from Sheffield, and iron from Norway.
